

Czech hop export decreased for drought in 2015

- ::: Czech hop trade companies exported 3 668 tons of hops. :::
- ::: Total value reached 877 million CZK :::
- ::: Japan and China supplied by almost 2 thousands tons :::
- ::: Export to thirds countries 68 per cent. :::
- ::: Czech hop export is stable item of czech agrarian international trade. :::

Hops are important item of agrarian international trade of the Czech Republic. Base on data of Czech Statistical Office there was exported 3 688 tons of certified czech hops from the Czech Republic. The certification system is indispensable for trade with czech hops. It declares traceability, quality and originality of buying hops.

The 2015 hop export decreased for unprecedented weather conditions between July - August. Hops were affected by long hot and dry wave with losses over 250 million CZK.

Total export value was 877 million CZK and it is longterm average. Intl trade balance reached 716 millions CZK. Hop trade helped to moderate negative trade balance of total agrarian international trade of the Czech Republic.

More than two thirds of hop export were shipped out of EU28. Major market for czech hops is currently Asia (Japan, China ...) and EU importer Germany. Hop export is still rising to Belgium, Italy or USA.

TOP 10 importers of czech hops (calendar year 2015)

1. China - 963 t
